

The Gross Regional Product (GRP) of San Diego County has shown a remarkable upward trajectory from 2019 to 2023. In 2019, the GRP stood at approximately \$244.28 billion. Despite the global economic challenges posed by the COVID-19 pandemic, the GRP demonstrated resilience, increasing slightly to \$244.82 billion in 2020. This resilience was followed by a significant recovery in 2021, with the GRP rising to \$268.87 billion. The growth momentum continued into 2022, reaching \$296.68 billion, and further increased to \$308.71 billion in 2023. This represents a total increase of approximately \$64.43 billion over the five-year period.

In terms of economic productivity per person, the per capita GRP in San Diego County also saw a notable increase. In 2019, the per capita GRP was approximately \$73,347, and by 2023, it had risen to approximately \$94,916. This increase highlights the enhanced economic productivity per individual over the period. When compared to broader benchmarks, San Diego County's per capita GRP in 2023 was higher than the state average of California, which was \$93,800, and significantly surpassed the national average of \$77,366. This comparison underscores San Diego County's strong economic performance relative to both state and national levels.

	Year	GRP (Billion \$)	Per Capita GRP (\$)	
	2019	244.28	73,347	
	2020	244.82	-	
	2021	268.87	-	
	2022	296.68	-	
	2023	308.71	94,916	

The sectoral contributions to the GRP reveal the diverse economic base of San Diego County. Key sectors include Government, Professional, Scientific, and Technical Services, and Manufacturing. The Government sector consistently contributed the highest dollar value to the GRP each year, culminating in \$52.92 billion in 2023. The Professional, Scientific, and Technical Services sector also demonstrated strong performance, contributing \$37.04 billion in 2023. Manufacturing remained a significant contributor, with \$31.67 billion in 2023. Overall, San Diego County's robust economic growth from 2019 to 2023, with significant increases in both total and per capita GRP, highlights its diverse and resilient economic base, outperforming state and national averages.
