

The Gross Regional Product (GRP) of San Diego County has shown a remarkable upward trajectory from 2019 to 2023. In 2019, the GRP was approximately \$244.28 billion, and by 2023, it had increased to about \$308.71 billion. This growth signifies a substantial increase of approximately \$64.43 billion over the five-year period. Despite the economic challenges posed by the COVID-19 pandemic, the GRP experienced a modest rise from \$244.28 billion in 2019 to \$244.82 billion in 2020. The subsequent years marked a significant recovery, with the GRP reaching \$268.87 billion in 2021, continuing to \$296.68 billion in 2022, and further climbing to \$308.71 billion in 2023.

San Diego County GRP Growth (2019-2023)

In terms of economic productivity per person, the per capita GRP also saw a notable increase. In 2019, the per capita GRP was approximately \$73,347, and by 2023, it had risen to about \$94,916. This growth in per capita GRP indicates an enhancement in economic productivity per individual over the period. When compared to broader benchmarks, San Diego County's per capita GRP in 2023 was higher than the state average of California, which stood at \$93,800, and significantly surpassed the

national average of \$77,366. This comparison underscores San Diego County's robust economic performance relative to both state and national levels.

	Year	GRP (Billion \$)	Per Capita GRP (\$)	
	2019	244.28	73,347	
	2020	244.82	-	
	2021	268.87	-	
	2022	296.68	-	
	2023	308.71	94,916	

The growth in San Diego County's GRP can be attributed to several key sectors. The Government sector consistently made the largest contribution, with its input rising from \$45.19 billion in 2019 to \$52.92 billion in 2023. The Manufacturing sector also demonstrated significant growth, increasing from \$28.26 billion in 2019 to \$31.67 billion in 2023. Other notable sectors include Professional, Scientific, and Technical Services, as well as Health Care and Social Assistance. Overall, San Diego County experienced robust economic growth from 2019 to 2023, with significant contributions from these key sectors and a strong per capita GRP performance relative to state and national averages.
