

The Gross Regional Product (GRP) of San Diego County from 2019 to 2023 demonstrates a consistent upward trend, reflecting significant economic growth over this period. In 2019, the GRP was approximately \$244.28 billion, and by 2023, it had risen to about \$308.71 billion. This increase of approximately \$64.43 billion over five years highlights the region's robust economic expansion. The annual growth figures further illustrate this trend: from 2019 to 2020, the GRP saw a modest increase of \$0.54 billion, reaching \$244.82 billion. The following year, from 2020 to 2021, the GRP experienced a more substantial rise of \$24.05 billion, reaching \$268.87 billion. The growth continued from 2021 to 2022, with an increase of \$27.81 billion, bringing the GRP to \$296.68 billion. Finally, from 2022 to 2023, the GRP grew by \$12.03 billion, culminating in a total of \$308.71 billion.

### San Diego County GRP 2019-2023

In terms of per capita GRP, there was also notable growth. In 2019, the per capita GRP was approximately \$73,347, and by 2023, it had increased to about \$94,916. This rise indicates an enhancement in economic productivity per individual over the period. When compared to state and

national levels, San Diego County's per capita GRP in 2023 was \$94,916, surpassing the California state average of \$93,800 and significantly exceeding the national average of \$77,366. This comparison underscores the county's strong economic performance relative to broader benchmarks. The largest contributors to the GRP in 2023 were the Government sector, contributing \$52.92 billion, followed by Professional, Scientific, and Technical Services at \$37.04 billion, and Manufacturing at \$31.67 billion. These sectors have consistently played a pivotal role in driving the county's economic engine.

Year	GRP (Billion \$)	Per Capita GRP (\$)
2019	244.28	73,347
2020	244.82	-
2021	268.87	-
2022	296.68	-
2023	308.71	94,916
