

The Gross Regional Product (GRP) of San Diego County from 2019 to 2023 demonstrates a consistent upward trend, reflecting significant economic growth over this period. In 2019, the GRP was approximately \$244.28 billion, and by 2023, it had increased to about \$308.71 billion. This growth represents a substantial increase of approximately \$64.43 billion over five years. The annual growth figures further illustrate this trend: from 2019 to 2020, the GRP rose slightly by \$0.54 billion, reaching \$244.82 billion. A more pronounced increase occurred from 2020 to 2021, with the GRP climbing by \$24.05 billion to \$268.87 billion. The upward trajectory continued from 2021 to 2022, with an increase of \$27.81 billion, bringing the GRP to \$296.68 billion. Finally, from 2022 to 2023, the GRP grew by \$12.03 billion, culminating in a total of \$308.71 billion.

San Diego County GRP 2019-2023

In terms of per capita GRP, there was a notable increase from 2019 to 2023, indicating enhanced economic productivity per individual. In 2019, the per capita GRP was approximately \$73,347, which rose to about \$94,916 by 2023. This growth suggests that the economic output per person has

improved significantly over the period. When compared to state and national levels, San Diego County's per capita GRP in 2023 was higher than the California state average of \$93,800 and significantly above the national average of \$77,366. This comparison highlights San Diego County's strong economic performance relative to broader benchmarks.

	Year	GRP (Billion \$)	Per Capita GRP (\$)	
	2019	244.28	73,347	
	2020	244.82	-	
	2021	268.87	-	
	2022	296.68	-	
	2023	308.71	94,916	

The economic growth in San Diego County from 2019 to 2023 can be attributed to significant contributions from key industries. The Government sector consistently made the highest contribution, with approximately \$52.92 billion in 2023. Additionally, the Professional, Scientific, and Technical Services sector exhibited robust growth, reaching about \$37.04 billion in the same year. These sectors have played a crucial role in driving the region's economic expansion, underscoring the resilience and dynamism of San Diego County's economy.
