

The Gross Regional Product (GRP) of San Diego County has shown a remarkable trajectory of growth from 2019 to 2023. In 2019, the total GRP was approximately \$244.28 billion. Despite the economic challenges posed by the COVID-19 pandemic, the GRP slightly increased to about \$244.82 billion in 2020. This resilience was followed by a significant recovery and growth phase in 2021, with the GRP rising to approximately \$268.87 billion. The upward trend continued in 2022, reaching around \$296.68 billion, and further increased to approximately \$308.71 billion in 2023. This consistent growth reflects the region's robust economic recovery and expansion. In parallel, the per capita GRP also demonstrated a positive trend. Starting at approximately \$73,347 in 2019, it saw a slight increase to about \$74,278 in 2020. The following years marked notable growth, with per capita GRP reaching approximately \$82,100 in 2021, \$90,557 in 2022, and \$94,916 in 2023. This increase in per capita GRP underscores the economic prosperity experienced by the residents of San Diego County during this period.

San Diego County GRP and Per Capita GRP (2019-2023)

The contributions of various industries to the GRP over these years have been significant. The government sector consistently emerged as the largest contributor, with its values increasing from approximately \$45.19 billion in 2019 to \$52.92 billion in 2023. Manufacturing also played a crucial role, with contributions ranging from about \$28.26 billion in 2019 to \$31.67 billion in 2023. The Professional, Scientific, and Technical Services sector showed impressive growth, contributing approximately \$28.13 billion in 2019 and increasing to \$37.04 billion in 2023. Similarly, the Health Care and Social Assistance sector grew from around \$15.38 billion in 2019 to \$20.21 billion in 2023. The Finance and Insurance sector, despite some fluctuations, generally increased from approximately \$14.67 billion in 2019 to \$19.50 billion in 2023. These sectors collectively drove the economic growth of San Diego County, highlighting a diverse and resilient economic landscape.

\$)	Per Capita GRP (\$)	Government (Billion \$)	Manufacturing (Billion \$)	Professional Services (Billion \$)	Health Care (Billion \$)
	73,347	45.19	28.26	28.13	15.38
	74,278	45.50	28.50	29.00	16.00
	82,100	48.00	29.50	32.00	17.50
	90,557	50.50	30.50	35.00	19.00
	94,916	52.92	31.67	37.04	20.21
