

# **San\_Diego\_County\_GRP\_Analysis\_2019\_2023.pdf**

The economic landscape of San Diego County from 2019 to 2023 has been marked by a consistent upward trajectory in the Gross Regional Product (GRP), reflecting a period of robust economic growth. In 2019, the county's GRP stood at approximately \$244.28 billion, with a per capita GRP of \$73,346.92, based on a population of 3,330,458. The following year, 2020, saw a slight increase in the GRP to \$244.82 billion. Despite a modest overall economic growth, the per capita GRP rose to \$74,277.60, even as the population decreased to 3,296,045. This suggests an increase in economic output per individual. The year 2021 marked a significant economic recovery, with the GRP jumping to approximately \$268.87 billion. The per capita GRP also saw a substantial increase to \$82,099.95, despite a slight population decrease to 3,274,954. This indicates a strong economic rebound and growth during this period. The upward trend continued in 2022, with the GRP reaching approximately \$296.68 billion and the per capita GRP climbing to \$90,557.10, while the population was 3,276,208. This reflects ongoing economic expansion and increased productivity per individual. By 2023, the GRP further increased to approximately \$308.71 billion, with the per capita GRP reaching \$94,915.87, even as the population slightly decreased to 3,252,468. This sustained economic growth highlights a high level of economic output per person, underscoring the resilience and strength of San Diego County's economy over these years.

Year	Total GRP (billion)	Per Capita GRP	Population
2019	244.28	73,346.92	3,330,458
2020	244.82	74,277.60	3,296,045
2021	268.87	82,099.95	3,274,954
2022	296.68	90,557.10	3,276,208
2023	308.71	94,915.87	3,252,468
