

The Gross Regional Product (GRP) of San Diego County has shown a remarkable upward trajectory from 2019 to 2023. In 2019, the GRP was approximately \$244.28 billion, and by 2023, it had risen to about \$308.71 billion. This increase of approximately \$64.43 billion over the five-year period highlights the region's robust economic growth. Despite the challenges posed by the COVID-19 pandemic, the GRP experienced a slight increase from 2019 to 2020, moving from \$244.28 billion to \$244.82 billion. This modest growth set the stage for a significant recovery and expansion phase, as evidenced by the substantial rise to \$268.87 billion in 2021. The growth momentum continued, with the GRP reaching \$296.68 billion in 2022 and further increasing to \$308.71 billion in 2023.

In terms of economic productivity per person, the per capita GRP also saw a significant increase. In 2019, the per capita GRP was approximately \$73,347, and by 2023, it had risen to about \$94,916. This growth indicates a notable enhancement in economic productivity per individual over the five-year span. When compared to broader benchmarks, San Diego County's per capita GRP in 2023 was higher than the state average of California, which stood at \$93,800, and significantly surpassed the national average of \$77,366. This comparison underscores San Diego County's strong economic performance relative to both state and national levels.

	Year	GRP (Billion \$)	Per Capita GRP (\$)	
	2019	244.28	73,347	
	2020	244.82	-	
	2021	268.87	-	
	2022	296.68	-	
	2023	308.71	94,916	

The economic landscape of San Diego County is supported by a diverse array of sectors, with Government, Manufacturing, Professional, Scientific, and Technical Services, and Health Care and Social Assistance playing pivotal roles. Among these, the Government sector consistently contributed the most to the GRP, with a substantial \$52.92 billion in 2023. Manufacturing and Professional, Scientific, and Technical Services also demonstrated strong contributions, with \$31.67 billion and \$37.04 billion respectively in 2023. This sectoral diversity not only underpins the county's economic resilience but also its capacity for sustained growth.
