

The Gross Regional Product (GRP) of San Diego County has shown a remarkable upward trajectory from 2019 to 2023. In 2019, the GRP was approximately \$244.28 billion, and by 2023, it had increased to about \$308.71 billion. This growth signifies a substantial increase of approximately \$64.43 billion over the five-year period. Despite the challenges posed by the COVID-19 pandemic, the GRP experienced a modest increase from 2019 to 2020, rising from \$244.28 billion to \$244.82 billion. The subsequent years marked a significant recovery and growth phase, with the GRP reaching \$268.87 billion in 2021, \$296.68 billion in 2022, and finally \$308.71 billion in 2023.

In terms of economic productivity per person, the per capita GRP also saw a significant rise. In 2019, the per capita GRP was approximately \$73,347, which increased to about \$94,916 by 2023. This increase highlights a notable enhancement in economic productivity per individual over the five-year span. When compared to state and national levels, San Diego County's per capita GRP in 2023 was higher than both the state of California's per capita GRP of \$93,800 and the national per capita GRP of \$77,366. This comparison underscores San Diego County's strong economic performance relative to broader benchmarks.

Year	Total GRP (Billion \$)	Per Capita GRP (\$)
2019	244.28	73,347
2020	244.82	-
2021	268.87	-
2022	296.68	-
2023	308.71	94,916

The economic growth of San Diego County is supported by diverse sectors, with Government, Professional, Scientific, and Technical Services, and Manufacturing playing pivotal roles. The Government sector consistently had the highest contribution, with approximately \$52.92 billion in 2023.

The Professional, Scientific, and Technical Services sector also demonstrated strong performance, contributing around \$37.04 billion in 2023. Manufacturing remained a significant contributor, with approximately \$31.67 billion in 2023. Overall, San Diego County exhibited robust economic growth from 2019 to 2023, with significant increases in both total GRP and per capita GRP, outperforming state and national averages.
