

The Gross Regional Product (GRP) of San Diego County has shown a remarkable upward trend from 2019 to 2023. In 2019, the total GRP was approximately \$244.28 billion. Despite the economic challenges posed by the COVID-19 pandemic, the GRP slightly increased to about \$244.82 billion in 2020. This resilience was followed by a significant growth phase in 2021, with the GRP rising to approximately \$268.87 billion, indicating a recovery and expansion period. The growth continued in 2022, reaching approximately \$296.68 billion, and further increased to about \$308.71 billion in 2023. This consistent growth reflects the region's economic recovery post-pandemic and expansion in key sectors.

The per capita GRP also demonstrated a positive trajectory over the same period. In 2019, the per capita GRP was approximately \$73,347. This figure increased to about \$74,278 in 2020, showing resilience in the face of economic adversity. The upward trend continued with a notable rise to approximately \$82,100 in 2021. By 2022, the per capita GRP had further increased to around \$90,557, and it reached approximately \$94,916 in 2023. This growth in per capita GRP indicates that the economic benefits are being distributed across the population, contributing to an overall increase in economic well-being in the region.

Year	Total GRP (Billion \$)	Per Capita GRP (\$)
2019	244.28	73,347
2020	244.82	74,278
2021	268.87	82,100
2022	296.68	90,557
2023	308.71	94,916

Various industries have contributed to the GRP growth in San Diego County. The government sector has consistently been the largest contributor, with GRP values increasing from approximately \$45.19 billion in 2019 to \$52.92 billion in 2023. The manufacturing sector also played a significant role, with values rising from about \$28.26 billion in 2019 to \$31.67 billion in 2023. The professional, scientific, and technical services sector showed substantial growth, increasing from approximately \$28.13 billion in 2019 to \$37.04 billion in 2023. Additionally, the health care and social assistance sector grew from about \$15.38 billion in 2019 to \$20.21 billion in 2023, while the finance and insurance sector expanded from approximately \$14.67 billion in 2019 to \$19.50 billion in 2023. These sectors have been pivotal in driving the economic growth of the region.
