

The Gross Regional Product (GRP) of San Diego County from 2019 to 2023 illustrates a consistent upward trend, signifying economic growth throughout this period. In 2019, the GRP was approximately \$244.28 billion, and by 2023, it had increased to about \$308.71 billion. This growth represents a total increase of approximately \$64.43 billion over the five-year span. Despite the global economic challenges posed by the COVID-19 pandemic, the GRP showed resilience, with a slight increase from \$244.28 billion in 2019 to \$244.82 billion in 2020. The subsequent years saw a robust recovery, with the GRP rising to \$268.87 billion in 2021, continuing to \$296.68 billion in 2022, and reaching \$308.71 billion in 2023.

The per capita GRP also demonstrated an upward trajectory, reflecting not only overall economic growth but also an increase in economic output per resident. In 2019, the per capita GRP was approximately \$73,347, and by 2023, it had risen to about \$94,916. This increase suggests improvements in productivity and economic well-being for the residents of San Diego County. Notably, San Diego County's per capita GRP in 2023 was higher than both the state of California, at \$93,800, and the national average of \$77,366, indicating that the county is performing well economically compared to broader state and national levels.

Year	GRP (Billion \$)	Per Capita GRP (\$)
2019	244.28	73,347
2020	244.82	N/A
2021	268.87	N/A
2022	296.68	N/A
2023	308.71	94,916

Key sectors contributing to the GRP include Government, Professional, Scientific, and Technical Services, and Manufacturing. The Government sector consistently contributed the largest share to the

GRP, with a notable increase from \$45.19 billion in 2019 to \$52.92 billion in 2023. The Professional, Scientific, and Technical Services sector also showed significant growth, from \$28.13 billion in 2019 to \$37.04 billion in 2023. Manufacturing remained a strong contributor, with its GRP increasing from \$28.26 billion in 2019 to \$31.67 billion in 2023. Overall, San Diego County's economy has demonstrated robust growth from 2019 to 2023, with significant contributions from key sectors and a per capita GRP that outpaces both state and national averages. This growth reflects the county's economic resilience and its ability to adapt and thrive in changing economic conditions.
