

# **San\_Diego\_County\_GRP\_Analysis\_2019\_2023.pdf**

The Gross Regional Product (GRP) of San Diego County from 2019 to 2023 demonstrates a consistent upward trend, reflecting significant economic growth over this period. In 2019, the GRP was approximately \$244.28 billion, and by 2023, it had risen to about \$308.71 billion. This increase of approximately \$64.43 billion over five years highlights the region's economic resilience and expansion. The annual growth patterns reveal that from 2019 to 2020, the GRP experienced a modest increase of \$0.54 billion, reaching \$244.82 billion, a reflection of the economic challenges posed by the COVID-19 pandemic. However, the subsequent years saw more robust growth, with the GRP rising by \$24.05 billion in 2021 as the economy began to recover, followed by an increase of \$27.81 billion in 2022, and a further \$12.03 billion in 2023, culminating in a GRP of \$308.71 billion.

In terms of per capita GRP, there was a notable increase from approximately \$73,347 in 2019 to \$94,916 in 2023, indicating enhanced economic productivity per individual. This growth in per capita GRP suggests that the economic benefits were not only widespread but also significant on an individual level. When compared to broader benchmarks, San Diego County's per capita GRP in 2023 was higher than the state average of California, which stood at \$93,800, and significantly above the national average of \$77,366. This comparison underscores the county's strong economic performance relative to both state and national levels.

	Year	GRP (Billion \$)	Per Capita GRP (\$)	
	2019	244.28	73,347	
	2020	244.82	-	
	2021	268.87	-	
	2022	296.68	-	
	2023	308.71	94,916	

The sectoral contributions to the GRP reveal that key industries such as Government, Professional, Scientific, and Technical Services, and Manufacturing played pivotal roles in this economic growth. The Government sector consistently contributed the largest share, with its GRP increasing from \$45.19 billion in 2019 to \$52.92 billion in 2023. Similarly, the Professional, Scientific, and Technical Services sector showed significant growth, rising from \$28.13 billion in 2019 to \$37.04 billion in 2023. Manufacturing also remained a strong contributor, with its GRP increasing from \$28.26 billion in 2019 to \$31.67 billion in 2023. These sectors collectively underscore the diverse and robust economic landscape of San Diego County.
