

The Gross Regional Product (GRP) of San Diego County from 2019 to 2023 demonstrates a consistent upward trend, reflecting significant economic growth over this period. In 2019, the GRP was approximately \$244.28 billion, serving as the baseline for our analysis. Despite the challenges posed by the COVID-19 pandemic, the GRP slightly increased in 2020 to about \$244.82 billion, showcasing the region's economic resilience. The year 2021 marked a significant recovery, with the GRP rising to approximately \$268.87 billion, a growth of about 9.82% from the previous year. This increase indicates a robust economic rebound post-pandemic. The upward trajectory continued in 2022, with the GRP reaching approximately \$296.68 billion, reflecting a growth of about 10.34% from 2021. By 2023, the GRP further increased to approximately \$308.71 billion, marking a growth of about 4.06% from the previous year. Although the growth rate slowed compared to the previous year, it still signifies continued economic expansion. Over the five-year period from 2019 to 2023, San Diego County's GRP increased by approximately 26.41%, from \$244.28 billion to \$308.71 billion. The most significant growth occurred between 2020 and 2022, likely driven by recovery efforts and economic adjustments post-pandemic. This consistent growth in GRP indicates a robust and resilient economy in San Diego County, capable of withstanding and recovering from economic disruptions.

San Diego County GRP (2019-2023)

Year	GRP (in billion \$)	Growth Rate (%)
2019	244.28	-
2020	244.82	0.22
2021	268.87	9.82
2022	296.68	10.34
2023	308.71	4.06
