The Gross Regional Product (GRP) of San Diego County from 2019 to 2023 demonstrates a consistent upward trend, reflecting significant economic growth over this period. In 2019, the GRP was approximately $244.28 billion, with a per capita GRP of $73,346.92, based on a population of 3,330,458. The following year, 2020, saw a slight increase in GRP to $244.82 billion. Interestingly, the per capita GRP rose to $74,277.60, despite a decrease in population to 3,296,045, suggesting an increase in economic output per person even as the overall population declined. The year 2021 marked a significant rise in GRP to approximately $268.87 billion, with the per capita GRP jumping to $82,099.95, while the population slightly decreased to 3,274,954. This indicates a robust economic recovery and growth post-2020. The upward trajectory continued in 2022, with the GRP reaching approximately $296.68 billion and the per capita GRP increasing to $90,557.10, alongside a population of 3,276,208. This reflects ongoing economic expansion and heightened productivity. By 2023, the GRP further increased to approximately $308.71 billion, with the per capita GRP reaching $94,915.87, despite a slight population decrease to 3,252,468. This suggests that economic output per person continued to rise, indicating improved efficiency and productivity in the region. Overall, San Diego County's GRP has shown consistent growth from 2019 to 2023, with a notable increase in per capita GRP each year. The economic growth is evident despite fluctuations in population, indicating increased productivity and economic resilience. The data suggests that San Diego County has been able to enhance its economic output and efficiency over the years, contributing to a higher standard of living and economic prosperity for its residents.

Year	GRP (Billion $)	Per Capita GRP ($)	Population
2019	244.28	73,346.92	3,330,458
2020	244.82	74,277.60	3,296,045
2021	268.87	82,099.95	3,274,954
2022	296.68	90,557.10	3,276,208
2023	308.71	94,915.87	3,252,468
